10.50am

Keynote Address: Cyber Attacks

Peter Coroneos

Peter is an internationally recognised authority on cyber policy, who has twice been invited to the White House to brief Obama Administration cybersecurity leadership. Detailing his journey from taking the lead of the internet industry in Australia when the future of the internet was by no means certain, to describing how he created a groundbreaking cyber security initiative which protects tens of millions of internet users, Peter's presentation will captivate you whilst providing a rare insight into the internet industry.

11.50am

Keynote Address: Digital Disruption

Nick Abrahams

Nick is a former professional comic and, for a while, was known as the Seinfeld of Japan (as bizarre as that may sound). Nick will look at how the industry will be impacted by digital disruption, and identify what you can do. Rather than looking at a “futurists” 20-30 year time horizon, Nick looks at what will be the major impacts over the next 3-5 years. Nick recently released the book “Digital Disruption in Australia: A guide for entrepreneurs, investors and corporates” – the only book that looks at the impact of disruption specifically in Australia.

11.30am **Keynote Address: Disruptive Technology – Are you Future Proof?**

Steve Sammartino

Steve is a "business technologist" who will blow your mind with his keynote. Uniquely combining anthropology and technology, Steve demystifies the rapidly changing rules of business. Steve will take you on a mind-spinning journey detailing our changing world as we enter technological age. What we learned at school, university and business college is now severely outdated. Steve outlines the shift which will displace dominant players and give rise to new commercial heroes. Steve illustrates how all of the major factors of production are being disrupted forever. Everything is up for grabs, including your job, your industry and the customers you are choosing. Are you brave enough?

12.30pm Lunch and Trade Exhibition

Session 10

11.00am – 12.00pm

- 11.00am **Keynote Address: Life on a Wire**
Peter Davidson
Peter has confronted fear and beaten it. He was the paramedic who put his own life in danger during the tragic 1998 Sydney to Hobart Yacht Race. In the midst of the worst storm in race history, Peter was lowered from the chopper into the enormous waves to rescue eight sailors. This is a powerful and moving story of showing the best of what ordinary, well-trained and motivated people can achieve. Having willingly placed his own life in danger in order to save others, Peter is one of the most inspirational speakers in Australia.
